TELLS OF POWELL'S THREAT

Woman Who Lived at House Hated Teamster's Talk With Wife.
Attorneys in the case of Andrew J. Powell, teamster, charged with the murder of Charles Bailey at the Powell home, near Twenty-fourth street and Topeka avenue, last April, succeeded in obtaining a jury shortly before noon today and the taking of testimony will be in progress this afternoon.
One of the state's chief witnesses is Mrs. May Powell, a German woman who was staying at the Powell home. She testified that she had heard Powell tell his former wife:
"If you won't marry me back, you won't marry Bailey, because I'll kill him first."
Powell and his wife had been divorced, but were still living in the same house. Bailey was killed when Powell entered his home and found Bailey in company with Mrs. Powell.

N. Y. Manufacturer Turns Over \$1,000,000 Business to Employees Who Made It

Henry A. Dix Applies the Golden Rule, Cuts Own Salary From \$60,000 a Year to 50 Cents, Loans Employees \$250,000 and Declares the Labor Problem Is Solved.

New York, Dec. 29.—The factory run by and for its employees functioned smoothly the first day. It was the plant formerly owned by Henry A. Dix, millionaire employer of New York, and Millie N. J. Dix, who announced that he would turn his \$1,000,000 a year dress manufacturing business over to the workers as a reward for their faithful service, and who put the announcement in effect yesterday.

He reduced his own salary at the same time from \$60,000 to 50 cents annually. He also loaned the employees \$250,000 cash capital with which to carry on the business. They are to pay for the blocks of stock they receive out of the future profits of the business.

"The solution of the labor problem in the United States is not entirely, perhaps, but very largely in the hands of employers," Mr. Dix said today. "And the solution, as I see it, is this: Treat your employees fairly, remember they are just human beings like yourself and that without them your business success would be impossible."

Simple He Says.
It is all simple enough when you come to look at it. It is nothing more than the practical application of the golden rule. And with it, in my case, so the love and thoughtfulness for the well-being of others as well as myself.

Never Had a Strike.
"It has been my experience that if employees are treated fairly, if their rights are given consideration, they will do the fair thing for you in return. I have never had a strike among the many people I have employed because they all know I do not regard them merely as beasts of burden but men and women who have feelings just as I have, who are part of our common humanity. In this view my wife always agreed with me and it was she who suggested many of the things which have been done for those who were in my employ."

"Other business men throughout the country may not follow our example, but it has been demonstrated to our satisfaction it is the right course. We have shown the way to others. If the colored man here is less labor-unrest and dissatisfaction in this country."
